MAINTENANCE SERVICES BROCHURE 2014

Corrival Ltd. – Maintenance Services

**“For a Successful Flight
CORRIVAL
is Behind”**

**“Our Mission is to constantly
search and provide extraordinary
performance in a safe and socially
responsible way.”**

Who we are

Corrival Ltd was established on 2009 in Heraklion Crete Greece, in order to provide aircraft Continuing Airworthiness Management services.

Corrival is an approved CAMO and Part-145 Organization, with license EL.MG.058 and EL.145.079 respectively and has the authorization to provide Aircraft Maintenance Services in accordance with European and International Aviation Standards.

Corrival Services

➤ **Corrival Aircraft Maintenance -Part-145 Services**

As an one-stop-shop organization providing technical support for different types of aircraft, we are able to carry out maintenance work for approved air operators.

Our engineering expertise and experience enable us to perform maintenance services at the highest quality fully customized to fit the specific needs of our clients.

Corrival's line base is at Nea Anchialos National Airport at Volos, but we may serve our customers across extensive network of Line Maintenance support.

➤ **Corrival Continuing Airworthiness Management (CAMO) Services**

We hold a CAMO approval for different aircraft types and offer a full range of CAMO services to support private as well as commercial aircraft in accordance with EASA & CAA regulations.

Aircraft Maintenance Services

Routine Services

- ✓ Maintenance for technical manuals, handbooks, catalogues, and other operational documents connected with performance of the services
- ✓ Line inspections in accordance with your current instructions.
- ✓ Enter in the aircraft log(s) and sign for the performance of line inspection.
- ✓ Enter remarks in aircraft log(s) regarding defects observed during the inspection.
- ✓ Provide personnel to assist the flight crew or ground staff in the performance of their tasks.

Replenishing of Oils and Fluids

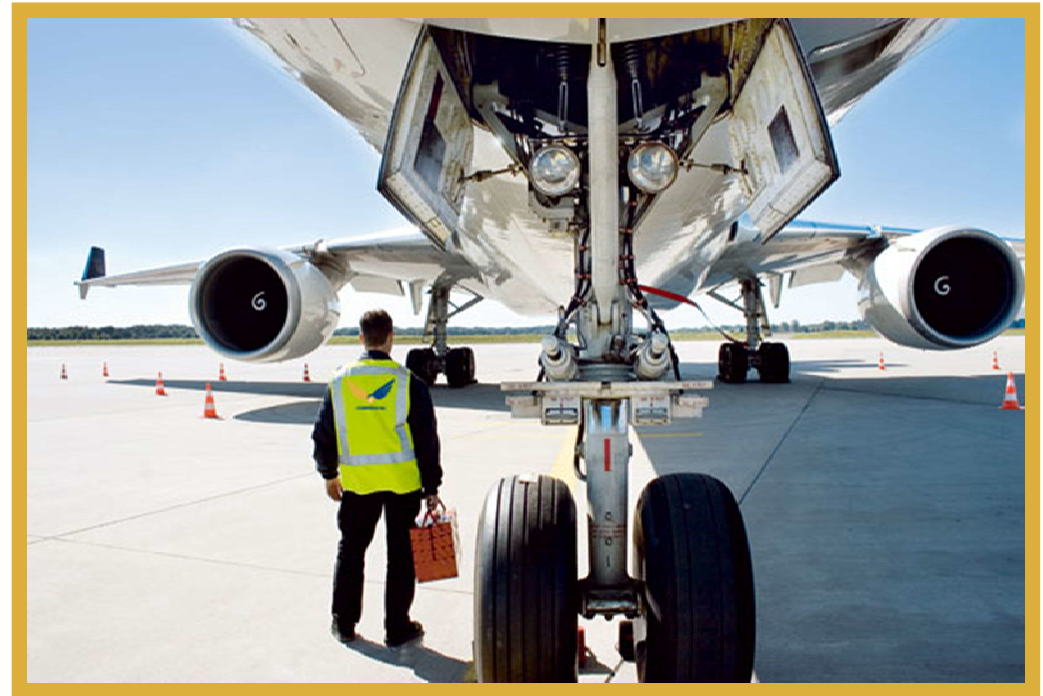

- ✓ Perform and supervise replenishing operations
- ✓ Provide, arrange and operate for replenishing of equipment.
- ✓ Wipe excess oil from engine nacelles
- ✓ Provide engine oil (if not provided by the Carrier).
- ✓ Provide hydraulic fluid (if not provided by the Carrier).

Corrival CAMO Services

- Corrival performs aircraft Airworthiness Reviews, renewal of certificates and submits recommendation reports to relevant local Aviation Authorities.
- Our experienced CAMO personnel provides airlines with a wide range of engineering services including the follow-up of reliability programs, the creation and update of maintenance programs, modifications and observance of all safety regulations

CAMO Department

- ✓ designs aircraft maintenance operations;
- ✓ monitors aircraft maintenance and certifies the bodies implementing it;
- ✓ monitors new specifications on engines and aircraft;
- ✓ monitors, files, records and renews aircraft records and logs.

Non-routine Services

- ✓ Rectify defects entered in the aircraft log as reported by the crew or revealed during the inspection, to the extent requested. However, major repairs must be separately agreed.
- ✓ Enter in aircraft log(s) and sign for the action taken.
- ✓ Report technical irregularities and actions taken to the Carrier's maintenance base.
- ✓ Provide and arrange for maintenance facilities, tools and special equipment to the extent available.
- ✓ Move aircraft under its own power

Material Handling

- ✓ Obtain customs clearance to administer any spare parts and/or equipment.
- ✓ Provide periodic inspection of your spare parts equipment.
- ✓ Provide storage space for the spare parts and/or equipment.
